## Central Statistical Office

Volume 113

Website: [www.zamstats.gov.zm](http://www.zamstats.gov.zm)

September, 2012

### Foreword

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

John Kalumbi  
Director of Census and Statistics

# INFLATION

## ***September Inflation increases to 6.6 percent***

The annual rate of inflation, as measured by the all items Consumer Price Index (CPI), increased by 0.2 percentage points, from 6.4 percent in August 2012 to 6.6 percent in September 2012. This means that on

average, prices increased by 6.6 percent between September 2011 and September 2012. The increase is attributed to increases in prices of food and some non-food items.

# INTERNATIONAL MERCHANDISE TRADE

## Zambia Continues to record a Trade Surplus

Zambia recorded a trade surplus valued at K 502.6 Billion in August 2012 from K383.2 Billion recorded in July 2012. This means that the country exported more in August 2012 than it imported, in nominal terms.

The country has continued to record trade surpluses since January 2012 with the highest valued at K502.6 Billion recorded in August 2012 and the lowest valued at K47.4 Billion recorded in February, 2012.

## ***Zambia's Major Export Destinations by Commodity in August 2012***

Zambia's major export destination in August 2012 was Switzerland, which accounted for 44.2 percent. The major

export products were Cathodes & Sections of Cathodes of refined Copper accounting for 84.9 percent.

China was the second major destination of Zambia's exports accounting for 26.7 percent. The major export product was Copper blister (52.3 percent).

South Africa was the third major export destination accounting for 6.9 percent. The main export products were Other Articles of Cobalt which contributed 20.4 percent.

The fourth major destination was Congo DR accounting for 6.6 percent. The major export product was Sulphuric Acid (13.8 percent).

The fifth major export destination was the United Arab Emirates, accounting for 3.9 percent. The major export product was Cathodes & Sections of Cathodes of refined Copper, which accounted for 91.9 percent.

These five countries collectively accounted for 88.3 percent of Zambia's total export earnings in August 2012.

## ***Export Market Shares by Regional Groupings, August and July 2012***

Asia was the largest market for Zambia's total exports accounting for 31.7 percent in August 2012. Within Asia, China was the dominant market with 84.4 percent. Other important markets in Asia were United Arab Emirates, Hong Kong, Singapore and India.

The Southern African Development Community (SADC) regional grouping was the second largest market for Zambia's total exports, accounting for 20.9 percent in August 2012. Within SADC, South Africa was the dominant market in August 2012 with 33.2 percent. Other notable markets in SADC were Congo DR, Zimbabwe, Namibia and Swaziland.

The Common Market for Eastern and Southern Africa (COMESA) was the third

largest market for Zambia's total exports, accounting for 12.3 percent in August 2012. Within COMESA, Congo DR was the largest market for Zambia's total exports, accounting for 53.8 percent. Other notable markets in COMESA were Zimbabwe, Malawi, Swaziland and Mauritius.

The European Union (EU) was the fourth largest market for Zambia's total exports accounting for 2.0 percent in August 2012. Within the EU, the United Kingdom was the dominant market with 58.3 percent in August 2012. Other notable markets were Luxembourg, Germany, Slovenia and Belgium.

# 2012/13 ZAMBIA DEMOGRAPHIC AND HEALTH SURVEY

The Central Statistical Office (CSO) in collaboration with the Ministry of Health (MoH) will be conducting the 2012/13 Zambia Demographic and Health Survey (ZDHS). The ZDHS is a periodic nationwide survey carried out every four to five years. It provides an opportunity for the Government to monitor the performance of the health sector. The 2012/13 ZDHS is the fifth in the series of ZDHSs which have been conducted since the first survey in 1992. Other surveys were undertaken in 1996, 2001/2 and 2007.

## Objectives of 2012/13 Zambia DHS

The main objective of the ZDHS is to provide information on levels and trends of fertility, childhood mortality, use of family planning methods, and maternal and child health and HIV and AIDS prevalence within the community. Like previous surveys, the 2012/13 ZDHS will be undertaken to provide information necessary for programme managers, policy makers, and implementers to monitor and evaluate the impact of existing programmes and to design new initiatives for health policies.

## What is new about the next Zambia DHS?

The successful undertaking of the 2012/13 ZDHS will provide for the first time, estimates of health indicators at sub-national levels. The 2012/13 ZDHS sample is designed to provide estimates at the national level, the provincial level, and for rural and urban areas within the provinces.

This will address the data gaps at sub-national level for planning, implementation, monitoring and evaluation of national health programmes. Most stakeholders, particularly the Ministry of Health and Ministry of Finance, require data at lower levels for planning in line with the government decentralization programmes. The survey will for the first time provide data on HIV incidence in adults.

## Where are we in the process?

Preparations for the forthcoming ZDHS commenced last year and activities undertaken so far include amongst others:

- consultative meetings with stakeholders;
- adaptation of questionnaires to our local situation and needs; and
- translation of questionnaires into major local languages.

## Next Activities:

Activities to be undertaken include Pretest; Household Listing, and main survey (administering of questionnaires, HIV prevalence and incidence testing).

# SELECTED SOCIO-ECONOMIC INDICATORS

## POPULATION 2000 to 2010
