Foreword

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

CSO THANKS ALL THE STAKEHOLDERS AS THE 2010 CENSUS DATA COLLECTION COMES TO AN END

The 2010 Census of Population and Housing count commenced on 16th October 2010 after the Launch by the Republican President, His Excellency Mr Rupiah Bwezani Banda on 15th October 2010. Since then, field staff have been interacting with our Communities in the whole country collecting the Census Data. The official Data collection period ended on 16th November 2010. However, due to the different challenges the data collectors faced during data collection, the data collection exercise has not yet been completed in some areas. The Central Statistical Office (CSO) has continued to collect data in such areas and expected to finish by 30th November 2010.

The CSO would therefore like to show gratitude to all the different stakeholders who played different roles in the data collection process. In particular, the CSO would like to thank the General Public for the cooperation they extended to all our field staff. The CSO would also like to thank all the enumerators, all the supervisors at different levels who took part in the exercise. This is despite the many challenges they might have faced during their tour of duty. These people woke up very early every morning, walked or cycled in wet and muddy paths to their respective enumeration areas in order to collect the much needed data.

The whole Census data collection exercise would not have been a success without the very high level commitment of the Government of the Republic of Zambia. The CSO is so grateful to the Government for providing more than 80 percent of all the required resources. This is the highest commitment that the CSO has ever received from Government on Census exercise from the time it started undertaking Censuses in Zambia.

Gratitude also goes to other stakeholders who provided Financial, Material and Technical Support to the Census exercise. Special gratitude goes to the United Nations Population Fund (UNFPA) for the support which started from the Census Mapping stage. The UNFPA has continued to support the Census to-date in the area of Census Publicity and Technical Monitoring of the Data Collection.

CSO would also like to thank the UK-DFID for the support in the questionnaire production. CSO will continue to benefit from UK-DFID on the Data processing requirements including the scanning process and Technical Assistance. The support rendered through the Technical Assistance from stakeholders such as AfDB and USAID is also appreciated.

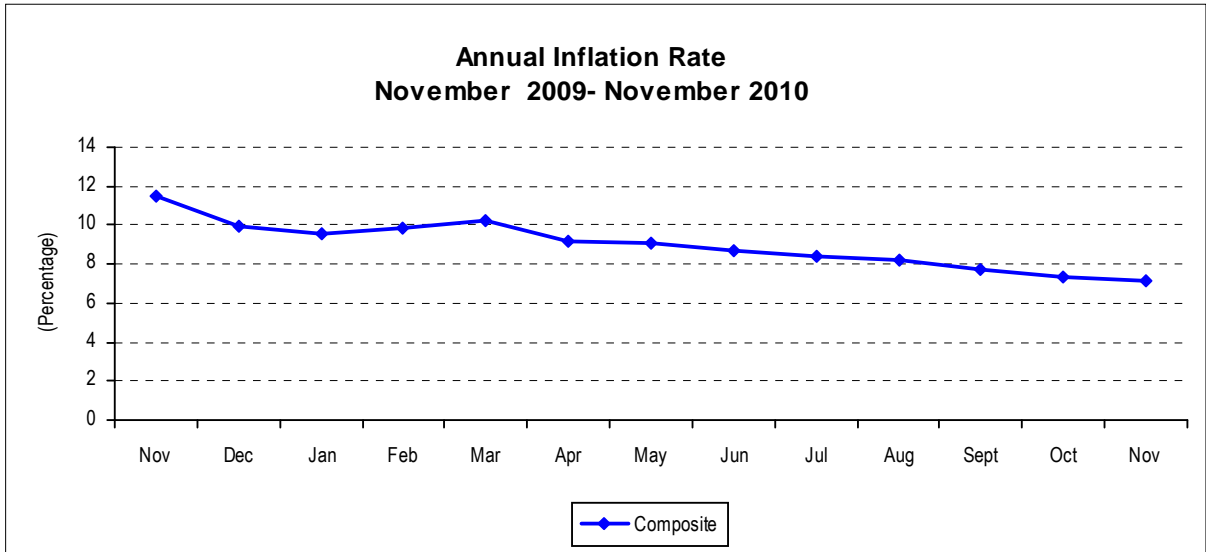

Data Collection is just one stage in the Census undertaking. The CSO would like to thank all those stakeholders who shall continue to render support to the Census in the other stages to come.

INFLATION

November Inflation declines to 7.1 percent.

The annual rate of inflation, as measured by the all items Consumer Price Index (CPI), reduced to 7.1 percent in November 2010,

from 7.3 percent in October, 2010. The decline is attributed to reductions in the cost of some food items.

Changes in annual inflation rates for CPI Main Groups

Between October 2010 and November 2010, annual inflation rates reduced for Food, beverages and tobacco; and Recreation and education. The annual inflation rates increased for Clothing and footwear;

Household fuel and lighting; Medical care; Transport and communication; and Other goods and services. The annual inflation rate remained unchanged for Furniture and household goods.

2010 CENSUS OF POPULATION AND HOUSING

The data collection for the 2010 Census of Population and Housing officially came to an end on 16th November 2010. The Central Statistical Office is proud to state that all parts of Zambia have been reached in order to count the People.

However, due to some unforeseen circumstances, a few people in some areas have not yet been Counted. It is for this reason that the Enumerators will continue to go round our communities up to the end of November 2010 to cover the people that have not yet been counted.

Have you been counted? If not, contact the nearest Central Statistical Office on the numbers below or the District Commissioner's Office Now.
