June, 2016

Foreword

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

John Kalumbi
DIRECTOR OF CENSUS AND STATISTICS

30th June, 2016

Inside this Issue

- Inflation decreases to 21.0 percent
- Trade Deficit declines by 91.5 percent in May 2016
- 7,528,091 Zambians Eligible to Vote in Forthcoming National Referendum!

We treasure what we measure"

INFLATION

Inflation decreases to 21.0 percent

The annual rate of inflation, as measured by the all items Consumer Price Index (CPI) for June 2016 decreased to 21.0 percent from 21.3 percent recorded in May, 2016. This means that on average, prices increased by 21.0 percent between June 2015 and June 2016. The decrease in the annual rate of inflation was mainly attributed to decreases in the prices of

food items such as Dried kapenta, Mealie meal, meats.

The Consumer Price Index (CPI) measures changes over time in the general level of prices of goods and services that households acquire for the purpose of consumption, with reference to the price level in 2009 (i.e. base year 2009 =100).

Annual Inflation Rate, June 2015 to June 2016

Annual Food and Non-Food Inflation Rates

The annual food inflation rate for June 2016 was recorded at 25.3 percent compared to 25.8 percent recorded in May, 2016. This indicates a decrease of 0.5 percentage points.

The decrease in food inflation was mainly attributed to decreases in the inflation of

Dried kapenta (Chisense, Mpulungu, and Siavonga), Dried bream, Mealie meal, Mixed cut beef, Cooking oil, Maize grain, Bananas and Groundnuts.

The annual non-food inflation rate for June 2016 remained the same as that recorded in May 2016 at 16.5 percent.

Provincial Changes in Inflation Rates

Provincial Annual Inflation Rate

Provincial changes in inflation rate show that between June 2015 and June 2016, North Western Province had the highest annual rate of inflation at 23.7 percent, followed by Northern/Muchinga Province at 23.5 percent. Copperbelt Province recorded the lowest annual rate of inflation at 18.7 percent.

Provincial Monthly Inflation Rate

Lusaka and Northern/Muchinga provinces had the highest monthly inflation rate in June 2016 at 0.8 percent each. The second highest monthly inflation rate was recorded in Southern Province at 0.4 percent. Luapula and North Western provinces had the lowest monthly rate of inflation recorded at -0.2 percent each.

National Average Prices for Selected Products

The Consumer price basket consists of 440 products and over 23,000 quotations are collected from selected outlets in all the districts in Zambia from

1st to 10th of every month. The table below shows the maximum and minimum prices for selected items and the location in June, 2016.

Maximum and Minimum Prices for Selected Products

Product Description	Unit of Measure	Minimum		Maximum	
		Price	Location	Price	Location
Breakfast Mealie Meal	25 kg	70.00	Itezhi-tezhi	120.00	Kabompo
Roller meal	25 kg	53.19	Livingstone	95.00	Mongu
Maize Grain	20 litre tin	20.00	Mambwe	60.00	Kabompo
Bread	Standard loaf	5.00	Kabwe	12.00	Nakonde
Sugar	1 Kg	10.00	Chienge, Solwezi	18.00	Mongu
Cooking Oil	750ml	12.00	Chongwe	23.00	Mumbwa
Charcoal	50 Kg bag	20.00	Chama	80.00	Chililabombwe
Cement	50 kg	52.00	Lusaka	80.00	Kaputa
Hammer milling Charge	20 litre tin	4.00	Mkushi	10.00	Nyimba

A comparison of retail prices between May 2016 and June 2016 shows that the national average price of a 25kg bag of Breakfast Mealie meal decreased by 1.17 percent from K83.12 to K82.15. The national average price of a 25kg bag of Roller Mealie meal decreased by 2.48 percent from K66.86 to K65.20. The national average price of a 20 litre tin of Maize grain decreased by 8.62 percent from K35.84 to K32.75.

On an annual basis, a comparison of retail prices between June 2015 and June 2016 shows that the national average price of a 25kg bag of Breakfast Mealie meal increased by 18.75 percent from K69.18 to K82.15. The national average price of a 25kg bag of Roller Mealie meal increased by 25.92 percent from K51.78 to K65.20.

Zambia's Major Export Destinations by Commodity in May 2016

The major export destination in May 2016 was Switzerland, which accounted for 44.5 percent of the total export earnings. The major export products to Switzerland were Cathodes & Sections of Cathodes of refined Copper accounting for 56.1 percent.

China was the second main destination of Zambia's exports accounting for 21.6 percent of the total export earnings. The major export product to China was Copper blister accounting for 77.7 percent.

United Arab Emirates was the third main export destination accounting for 7.6 percent of the total export earnings. The major export products were Telephones for cellular

networks or for other wireless networks accounting for 99.4 percent.

Congo DR was the fourth main export destination accounting for 5.9 percent of the total export earnings. The major export products to Congo DR were Vegetable fats and oils and their fractions, hydrogenated, etc accounting for 10.5 percent.

The fifth main export destination was India which accounted for 4.9 percent of the total export earnings. The major export products to India were Other mineral substances, nes accounting for 41.0 percent.

These five countries collectively accounted for 84.5 percent of Zambia's total export earnings in May 2016.

Export Market Shares by Selected Regional Groupings and major Trading Partners, May and April 2016

Switzerland was the largest export destination for Zambia during May 2016, accounting for 44.5 percent of Zambia's total exports.

Asia was the second largest market for Zambia's total exports, accounting for 38.9 percent in May 2016. Within Asia, China was the dominant market, accounting for 55.7 percent. Other

notable markets in Asia were United Arab Emirates, India, Singapore, and Hong Kong.

The Dual SADC/COMESA grouping was the third largest market for Zambia's total exports accounting for 8.5 percent in May 2016. Within this grouping, Congo DR was the

dominant market with 69.9 percent. Other notable markets in this grouping were Zimbabwe, Malawi, Mauritius and Swaziland.

The SADC exclusive grouping was the fourth largest destination accounting for 5.2 percent of Zambia's total exports, in May 2016. Within this grouping, South Africa was the dominant market with 85.1 percent. Other notable markets were Tanzania, Botswana, Mozambique and Namibia.

The European Union (EU) was the fifth largest market for Zambia's total exports accounting for 1.8 percent in May 2016. Within the EU, United Kingdom was the dominant market with 78.4 percent. Other notable markets

were Netherlands, Germany, Italy and Belgium.

The COMESA exclusive grouping was the sixth largest market for Zambia's total exports accounting for 0.8 percent in May 2016. Within this grouping, Kenya was the dominant

market with 45.2 percent. Other notable markets in this grouping were Rwanda, Uganda and Burundi.

The rest of the world accounted for the remaining 0.3 percent in May 2016.

(R) Revised figures

7,528,091 ZAMBIANS ELIGIBLE TO VOTE IN FORTHCOMING NATIONAL REFERENDUM!

Background

On Tuesday 5th January 2016, His Excellency the President Mr. Edgar Chagwa Lungu signed the new Constitution adopted by Parliament into Law. Further, the Government of the Republic of Zambia (GRZ) has decided to subject the Bill of Rights to a national referendum to be held alongside the 2016 Presidential, Parliamentary, Mayoral and Local Government Elections. The Referendum Act No. 5 of 2015 under subsection 2 provides as follows; “Any question put to a referendum under Article 79 of the Constitution shall be voted on by not less than fifty percent of persons entitled to be registered as voters for the purposes of Presidential and Parliamentary elections”. Thus the Central Statistical Office (CSO) provided projected estimates of the number of eligible voters in the forthcoming referendum to the Electoral Commission of Zambia (ECZ), stakeholders in the electoral process and the general public at large.

In determining the appropriate methodology for estimating the number of eligible voters the CSO considered four options:

- i. *Use of the most recent census figures, which in this case would be the number of eligible voters estimated in the 2010 Census of Population and Housing*
- ii. *Use of population projections of eligible voters, based on the 2010 Census of Population and Housing*
- iii. *Use of a national sample census, with sufficient sample size to provide estimates of eligible voters for each of the 150 constituencies*
- iv. *Conduct of a complete census of population, covering the entire country population*

Due to the challenging fiscal situation currently prevailing in government and the limited time before the National Referendum in August 2016, option ii above was recommended, as the only viable alternative for estimating the number of eligible voters, in the 2016 National Referendum.

Methodology for the Zambia Population Projections 2011-2035

The 2011-2035 population projections were made using the total de jure population counted in the 2010 census, and projected forward from 30th June 2010 (mid-year). The use of the de jure population is consistent with past practice and provides a more accurate representation of total populations at different geographic levels. The cohort component method, considered a “Gold Standard” for generating population projections was used in generating the projections at national, provincial and for rural and urban areas. The method involved the use of population data on births, deaths and migration from the 2010 census. A rigorous process of data analysis and evaluation of past demographic trends and patterns, including extensive consultation of literature was made to arrive at assumptions on future population prospects for the projection period, 2011-2035. Further, as a quality control assurance measure, the CSO worked closely with technical staff from the US Census Bureau in developing the assumptions and the final population projections. Strict adherence to sound methodology and international best practice were followed at all times. A detailed population projections report covering the period 2011-2035 was published and disseminated to the public by the CSO in July 2013.

Estimation of Eligible Voters in 2016

From the projected total population of **15,933,883**, an estimated total of **7,528,091** Zambians shall be aged **18 years or older by 30th June 2016, thus qualifying to be registered as voters and eligible to vote in the forthcoming referendum in August, 2016.** The distribution of eligible voters by sex and province is provided in the table below.

Projected Total Number of ELIGIBLE VOTERS [Population aged 18 years or older] and Projected TOTAL POPULATION as at Mid-year, By Sex, ZAMBIA 2016

Total requirements							
C. Surplus/deficit (A-B) ^{10/}	634,681	-40,000		0	0	31,713	625,255
D. Potential Commercial exports ^{11/}	-634,681	40,000	0	0	0	0	0
E. Food aid import requirements ^{12/}	0	0	0	0	0	0	0

Notes:

1/ Stocks expected to be held by commodity traders, millers, brewers, FRA, DMMU and commercial and small scale farmers as at 1st May 2016

2/ Production estimates by MoA/CSO. Cassava production is based on the total area under cassava, using an annual yield figure of 11.7 tonnes per hectare (MAFF Root and Tuber Improvement Programme, 1996). A flour extraction rate of 25% is used. Other tubers are sweet potatoes and Irish potatoes.

3/ Human staple food consumption represents 70% (1,470 kCal/person/day, CSO) of total diet (2,100 kCal/person/day, National Food and Nutrition Commission), for the national population of 14.58 million people (based on CSO Census projections with 2016 and 2017 average population used). The food balance shows an overall surplus of staple foods. Food prices may affect the level of food consumption.

4/ National strategic requirements expected to be carried over into the next season by FRA.(this amount of 500,000 Mt includes equivalent quantity that is already budgeted for)

5/Estimated requirements by major stock feed producers.

6/ Estimated requirements by industrial breweries.

7/ Estimated retention of grain for other uses by smallholders.

8/ Post-harvest losses are estimated at 5% for grains, sweet potatoes and cassava, in line with estimates from other SADC countries.

9/ Structural exports represents cross-border trade, mostly to the DRC, that occurs on a continuing basis and that is likely to occur during the 2015/16 marketing season. It does not include Formal trade.

10/Expected surpluses' or deficits that arise after meeting minimum overall staple human consumption requirements as well as industrial requirements. The total surplus/deficit is expressed as maize equivalent using energy values. The rice deficit is based on a 3 year rolling average of what is known to be imported each year, as indicated under D.

11/Commercial imports/exports represent expected regional and international trade by the private sector. been harvested

For cassava, the surplus represents cassava that is still in the ground and may not necessarily be harvested

12/Total estimated requirement for food relief among vulnerable groups, to be imported. This could be met with maize or other grains.
