## Central Statistical Office

Volume 135

Website: [www.zamstats.gov.zm](http://www.zamstats.gov.zm)

July, 2014

### Foreword

Welcome to the Monthly presentation organised by the Dissemination Branch of the Central Statistical Office (CSO). The CSO embarks on vigorous information delivery strategy to major stakeholders and the media institutions in order to increase utilisation of statistical products and services. The office produces a number of statistical products in the Economic, Social, Agricultural and Environmental areas. The information collected in these areas may be used for various purposes including policy formulation, planning, implementation, monitoring and evaluation of programmes and projects.

This Monthly publication is an attempt to provide highlights of CSO's work and how it can help media institutions and the general public to make use of data and information for sustainable national development and decision-making.

I would like to urge our readers and users of statistical information to send to us any comments that may enhance statistical production and contribute to the improvement of this bulletin.

# INFLATION

## Inflation increases to 8.0 percent

The annual rate of inflation, as measured by the all items Consumer Price Index (CPI) for July 2014 was recorded at 8.0 percent. This means that on average, prices increased by 8.0 percent between July 2013 and July 2014.

The Consumer Price Index (CPI) measures changes over time in the general level of prices of goods and services that households acquire for the purpose of consumption, with reference to the price level in 2009 (i.e. base year 2009 =100).

The increase in the annual rate of inflation is mainly attributed to increases in the non-food items.

### Zambia's Major Export Destinations by Commodity in June 2014

Zambia's major export destination in June 2014 was Switzerland, which accounted for 46.7 percent. The major export products to Switzerland were Cathodes & Sections of Cathodes of refined Copper accounting for 94.8 percent.

China was the second major destination of Zambia's exports accounting for 17.2 percent. The major export product to China was Copper blisters (68.8 percent).

The third major export destinations were South Africa and Congo DR accounting for 6.6 percent each. The major export product to South Africa was Semi-

manufactured gold (incl. Gold plated with platinum), non-monetary (25.8 percent). The major export product to Congo DR was Sulphuric acid; oleum in bulk, accounting for 15.4 percent.

Singapore was the fourth major export destination accounting for 4.2 percent. The major export products were Cathodes & Sections of Cathodes of refined Copper accounting for 98.6 percent.

These five countries collectively accounted for 81.3 percent of Zambia's total export earnings in June 2014.

## Export Market Shares by Regional Groupings, May and June 2014

Asia regional grouping was the largest market for Zambia's total exports, accounting for 25.5 percent in June 2014. Within Asia, China dominated the export market, accounting for 67.3 percent. Other notable markets in Asia were Singapore, United Arab Emirates, Japan and India.

The Southern African Development Community (SADC) was the second largest market for Zambia's total exports, accounting for 21.7 percent in June 2014. Within SADC, South Africa was the dominant market with 30.6 percent. Other notable markets in SADC were Congo DR, Zimbabwe, Malawi and Mauritius.

The Common Market for Eastern and Southern Africa (COMESA) was the third largest market for Zambia's total exports accounting for 13.9 percent in June 2014. Within COMESA, Congo DR was the dominant market with 47.1 percent. Other notable markets in COMESA were Zimbabwe, Malawi, Mauritius and Kenya.

The European Union (EU) was the fourth largest market for Zambia's total exports accounting for 1.4 percent in June 2014. Within the EU, the United Kingdom was the dominant market with 40.4 percent. Other notable markets were Belgium, Netherlands, Germany and Italy.

## Zambia's Major Import Sources by Commodity in June 2014

The major source of Zambia's imports in June 2014 was South Africa, accounting for 33.3 percent. The major import products from South Africa were Structures and parts of structures, nes, of iron or steel contributing 3.9 percent.

Congo DR was the second main source of Zambia's imports accounting for 20.1 percent. The major import products from Congo DR were Copper ores and concentrates, accounting for 73.7 percent.

The third main source of Zambia's imports was Kenya, which accounted for 7.8 percent. The major import products were Gas oils which accounted for 51.2 percent.

Other sources of Zambia's imports were China and India which collectively accounted for 10.9 percent of Zambia's Imports.

## Import Market Shares by Regional Groupings, May and June 2014

The Southern African Development Community (SADC) regional grouping was the largest source of Zambia's imports accounting for 61.6 percent in June 2014. Within SADC, South Africa was the major source of Zambia's imports with 54.1 percent. Other notable markets were Congo DR, Mauritius, Tanzania, and Zimbabwe.

The Common Market for Eastern and Southern Africa (COMESA) regional grouping was the Second largest source of Zambia's imports accounting for 32.7 percent. Within COMESA, Congo (DR) was the main source of Zambia's imports, accounting for 61.5 percent. Other notable markets were Kenya, Mauritius, Zimbabwe, and Malawi.

Asia was the third largest source of Zambia's imports accounting for 18.8 percent in June 2014. Within Asia, China was the main source of Zambia's imports with 40.1 percent.

Other notable markets were India, Japan, United Arab Emirates and Singapore.

The European Union was the fourth largest source of Zambia's imports accounting for 7.6 percent. Within this grouping, The United Kingdom was the main source of Zambia's imports with 31.4 percent. Other notable markets were Belgium, Netherlands, Sweden and Germany.

Source: Crop Forecasting Survey (CFS) 2012/13

**Notes:**

1/ Stocks expected to be held by commodity traders, millers, brewers, FRA, DMMU and commercial and small scale farmers as at 1<sup>st</sup> May 2013.

2/ Production estimates by MAL/CSO. Cassava production is based on the total area under cassava, using an annual yield figure of 11.7 tonnes per hectare (MAFF Root and Tuber Improvement Programme, 1996). A flour extraction rate of 25% is used. Other tubers are sweet potatoes and Irish potatoes.

3/ Human staple food consumption represents 70% (1,470kCal/person/day, CSO) of total diet (2,100kCal/person/day, National Food and Nutrition Commission) for the national population of 14.58 million people (based on CSO Census projections with 2.8% growth rate projected to October 2012, midmarket). The food balance shows an overall surplus of staple foods. Food prices may affect the level of food consumption.

4/ National strategic requirements expected to be carried over into the next season by FRA. (This amount of 500,000 Mt includes equivalent quantity that is already budgeted for).

5/ Estimated requirements by major stock feed producers.

6/ Estimated requirements by industrial breweries.

7/ Estimated retention of grain for other uses by smallholders.

8/ Post harvest losses are estimated at 5% for grains, sweet potatoes and cassava, in line with estimates from other SADC countries.

9/ Structural exports represents cross-border trade, mostly to the DRC, that occurs on a continuing basis and that is likely to occur during the 2012/13 marketing season. It does not include large-scale formal trade.

10/ Expected surpluses or deficits that arise after meeting minimum overall staple human consumption requirements as well as industrial requirements.

The total surplus/deficit is expressed as maize equivalent using energy values.

The rice deficit is based on a 3 year rolling average of what is known to be imported each year, as indicated under D.

For cassava, the surplus represents cassava that is still in the ground and may not necessarily be harvested.

11/ Commercial imports/exports represent expected regional and international trade by the private sector.

12/ Total estimated requirement for food relief among vulnerable groups, to be imported. This could be met with maize or other grains.
